

Motorized Reels

Motorized Rewind Reels

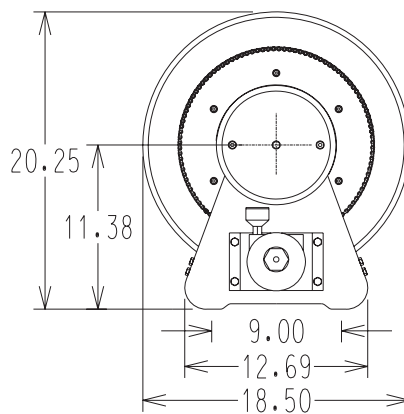

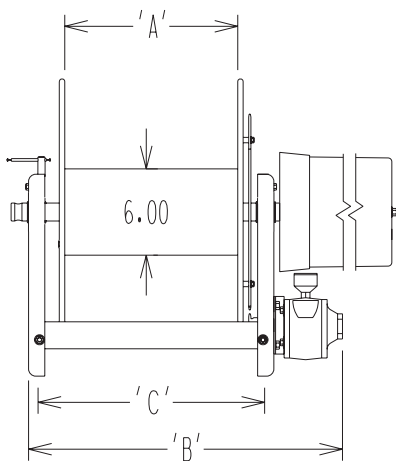

The Extreme Reel

The 30 Series motorized reels are equipped to handle applications that require numerous extension and retraction cycles. It's the reel that **works all day, every day**. With multiple circuit rating options and the capability to manage over 100' of cable, motorized reels can be adapted to fit your needs.

- Motorized reel options include, air, electric and hydraulic
- Heavy-duty motor designed for heavy-duty usage
- Rugged dual triangular support with shaft bearings
- Multiple spool width options: Choose from 6", 12", 18", 22" or 28"
- Larger diameter cable capability up to .875" O.D.
- Low profile for critical space requirements
