

90 SERIES - Extra Large Capacity Spring Driven Reel

Make no mistake - **this is the big one!** The 90 Series is perfect when you need a reel that can handle longer cable lengths with large diameter cable. With the capability to handle cable up to 1.33" O.D., this reel can manage what most reels can't.

- Heavy dual support design for structural strength
- Multiple spring motor torque options
- Available in stainless steel to help with corrosive environments
- High power circuit rating options allow for higher amperages
